PAYMENT BY CHECK OR CASH

NAME.....

SCC, PO BOX 220, WETUMPKA, AL 36092

ADDRESS.....

Southern independence will come, wanted or not, with the implosion of the empire. It will be thrust upon our folk and we need to be prepared to grasp it. Organized resistance to government tyranny has been under attack for decades. Though there have been setbacks, we are still on the field along with many other Southerners and Westmen. Organized resistance is making a great comeback and we welcome a younger generation to the fight. I think they have figured out the destruction and who is behind it.

The national conference is the next step in the progression of restoring our own political destiny – free of federal control of our state and local governments and more importantly restoring the Biblical Christian foundations of the Southern people.

You can expect to be in the fellowship of your people that share the burning desire for liberty and self-determination. You will take away excitement that can only be gained in this type of comradery and the realization you're in the fight to win. Our speakers will identify the tools we have at our command and how to use them.

We are very excited to say we have a real chance to pay off the mortgage and burn the note on the building and land at the conclusion of the conference, right up front! Preregistration will help in planning and will be greatly appreciated.

Mike Whorton
